## ABOUT NEST-IN

As India surges forward to a smarter time and age, there is a need for newer, innovative and faster construction solutions that will fuel this momentum.

Making its presence felt in the nation's growth is Tata Steel's Nest-In through its range of steel-based modular and prefabricated construction solutions.

Nest-In strives to provide complete turnkey solutions with unique customer experiences at its core. Offering a range of prefabricated solutions for housing, offices, industrial amenities, sanitation, safe drinking water, portable cabins and premium living, Nest-In today serves over 26 states in India.

## ABOUT MOBINEST

Convenience Meets Comfort In These Easily Transportable Cabins

MobiNest is a steel-based portable cabin solution from the house of Nest-In which aims to make living spaces easy-to-install and highly mobile.

The MobiNest series consists of a range of portable cabins that come in customizable sizes and are designed to meet the needs of 21<sup>st</sup> century living spaces. These are most commonly used as workspaces in off-route locations of manufacturing, mining and construction companies, but also serve as effective housing and sanitation solutions where the need arises.

**MobiNest units are portable, easy-to-install and can be reused and repurposed. These units also offer flexibility in terms of design and speed of installation. They are also cost effective as compared to conventional, permanent construction.**
